## PHILOSOPHY OF TEACHING AND CURRICULUMS

Here at Engineering for Kids (E.F.K.) we take teaching very seriously however we aren't overly concerned if the child retains the specific engineering concepts or scientific laws.

We teach to ensure that the children develop a **love of learning**, that they accept to learn through trial and error, "**Failure is an Option!**" and that they develop key teamwork skills that are paramount for future education and career endeavors.

PreK: LEGO® Duplos, Computer Programming with Scratch Jr, and creative Engineering builds like: Kaleidoscopes, Catapulting Marshmallows and Loop Airplanes.
